

Dr. Joseph Eviatar
Chelsea Eye & Cosmetic Surgery Associates
New York, New York

ASK DR. EVIATAR

HOW WOULD YOU DESCRIBE YOUR PHILOSOPHY?

Our philosophy is to be minimally invasive and produce long-lasting, natural results.

HOW DOES A COLLABORATIVE APPROACH ENHANCE THE CARE YOU DELIVER?

My team of specialists includes ophthalmologist Christopher T. Coad, MD, FACS, who specializes in LASIK surgery. Very often vision-correction patients no longer require eye glasses after their procedures and then seek my services to remove their under eye bags and address other cosmetic issues around the eyes.

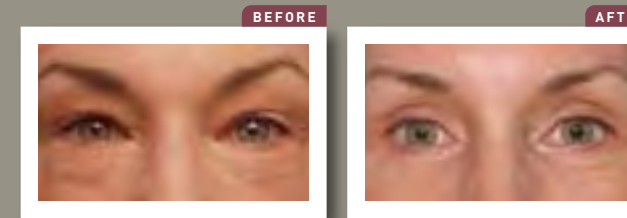

HOW DO YOU HONE YOUR CRAFT WHEN NOT TREATING PATIENTS?

As a pianist and designer, I find I'm able to improve my dexterity and my visual appreciation for form and balance. I participate in many FDA clinical trials and pilot studies, and am a member of the National Education Faculty for several different injectables. I travel extensively, lecturing and educating other physicians, and have recently been featured on the national news for my treatments using Botox® Cosmetic. I have also been on ABC for my work with Latisse®, as well as on CBS injecting Radiesse® and performing Relaxed Expressions™, and on FOX performing a browlift with BioGlue®.

Youthful yet natural

Dr. Eviatar's experience in the cosmetic enhancement of the eyelids and surrounding structures has led to a stream of satisfied patients. As a home designer and art collector, he realizes that facial harmony is a critical aspect of beautiful results. A vision-correction and aesthetic patient himself, Dr. Eviatar is able to relate to his patients' concerns. "The eyes are delicate and require a specialized eye plastic surgeon, familiar with the fine anatomy and the surrounding facial structures. We provide comprehensive aesthetic care for more tailored results, less invasive treatments and more individualized outcomes." Dr. Eviatar believes achieving a natural look is essential. "My goal is to help restore a youthful look and renew confidence using a host of youth-enhancing cosmetic surgical and nonsurgical procedures. My techniques allow for minimal downtime."

CASE STUDY

EYE ON THE HORIZON

"This patient's eyes were previously withdrawn, sunken in and very narrow," says Dr. Eviatar. "I recommended an upper and lower blepharoplasty to help widen the appearance of her eyes and give her a more well-rested appearance. She certainly doesn't look 50 anymore, and is very pleased."

"I find the cosmetic portion of my practice the most rewarding"

DR. JOSEPH EVIATAR IS A SKILLED INJECTOR OF ADVANCED FACIAL FILLERS AND BOTOX®, AND IS OFTEN SOUGHT OUT FOR TREATMENTS AROUND THE EYES AS WELL AS AREAS OF THE FACE. "BECAUSE MY TRAINING IS SO SPECIALIZED, I AM ABLE TO CONCENTRATE ON AESTHETIC-ENHANCING PROCEDURES DIRECTLY RELATED TO OPHTHALMIC PLASTIC SURGERY, STAYING AT THE FOREFRONT OF MY FIELD," SAYS DR. EVIATAR, WHO HAS PERFORMED THOUSANDS OF BLEPHAROPLASTIES AND BROWLIFTS, AMONG OTHER PROCEDURES, AND ENJOYS A WORLDWIDE PATIENT FOLLOWING.
